

Balconi

Balconi's delicious cakes, snacks and sweet rolls are made using traditional Italian recipes and all-natural ingredients.

Balconi

Balconi was established in Milan, Italy in 1950 and the reputation of the family business quickly grew – initially within Italy and then throughout Europe. This was due to the irresistible taste and quality of its delicious sponge-based cake snacks, which are now loved by families all over the world.

Every day 3.5 million Balconi snacks leave the Milan factory. That's enough to cover two football pitches!

Today Balconi is a leader in sponge-based snacks, cakes and rolls, all of which contain no GMO ingredients, colourings or preservatives.

Individually-packaged, Balconi cake snacks can be enjoyed anywhere and at anytime by all age groups.
